Re: Compliance Letter  
UCAR Carbon Company, Inc.  
OHD 004 167 383

Dear Mr. Hillson:

On April 5, 1989, the Ohio Environmental Protection Agency (OEPA), representing the United States Environmental Protection Agency (U.S. EPA), conducted a Resource Conservation and Recovery Act (RCRA) inspection of the above referenced facility. The purpose of the inspection was to determine the compliance status of this facility with respect to the applicable hazardous waste management requirements of RCRA, including the land disposal restrictions of certain spent solvents (F001-F005) and dioxins which became effective on November 8, 1986, and certain hazardous wastes commonly referred to as California list wastes which became effective on July 8, 1987. Additionally, the land disposal restrictions for First Third of Scheduled Wastes became effective on August 8, 1988. Regulations are set forth in 40 CFR Part 268 and in revisions to 40 CFR Parts 260-265, 268, 270, and 271.

As a result of the inspection, it appears that the subject facility is in compliance with the land disposal requirements found at 40 CFR Part 268.

Thank you for your cooperation. If you have any questions concerning this letter, please contact Mr. Gregory T. Carlson of my staff at (312) 886-8095.

Sincerely yours,

Sally K. Swanson, Chief  
IN/MN/OH Enforcement Program Section
